

Group folders

find your missing G-Drive

To correct the missing G Drive/
Group Folder issue, follow the
steps outlined below:

- open the folder on your desktop
labeled " WSD Staff Icons."
- Double click the icon labeled "HS
Teachers click here to fix your
G-Drive.bat Shortcut."

Your G-Drive should now be
mapped properly and appear in your
My Computer window.

We are working on a more elegant
fix, but in the meantime, this has
been tested and will work.
